Fund Features

Sustainable income: Paid monthly and majority franked. As the Fund's name suggests, sustainable above-market income is a targeted outcome of our investment approach and a key objective of the Fund.

Proven Investment Philosophy: We believe people are motivated by short-term outcomes, overemphasise recent information and are uncomfortable having unpopular views.

Portfolio Diversification: The benchmark unaware approach to portfolio construction is a key structural feature, especially given the concentrated nature of the ASX200 index.

Downside protection: In addition to placing a heavy emphasis on capital preservation through our fundamental research, we use derivatives to reduce the Fund's market exposure and risk by 30% whilst still retaining all of the dividends and franking credits from the portfolio.

Integrated ESG Approach: We believe deep consideration of governance, social as well as environmental issues – coupled with active ownership – enhances investment, business and community outcomes.
