Glossary

Fund	Class A units in the SG Hiscock Property Fund. No other class of units in the Fund is offered in this document.
Constitution	The constitution of the SG Hiscock Property Fund, as amended from time to time.
Direct Investor	Investors accessing the Fund through an application submitted directly to Fidante. Also referred to as unitholders.
Fidante	Fidante Partners Services Limited, we, us, our, Responsible Entity.
Indirect Investor	Investors who access the Fund through platforms that are an investor directed portfolio service (IDPS) or IDPS like scheme.
TMD	Target Market Determination. This document outlines the features of the Fund and describes the type of customers who the product is likely to be appropriate for. It also specifies distribution conditions and restrictions that will help ensure the Fund is likely to reach customers in the target market.

Fidante Partners Services Limited (ABN 44 119 605 373, AFSL 320505) Fidante, we, our, us) is the Responsible Entity of the SG Hiscock Property Fund (ARSN 088 905 382) and the issuer of this PDS. In preparing the information contained in this document we did not take into account your particular investment objectives, financial circumstances, or needs. As investors' needs and aspirations differ, you should consider the applicable PDS and TMD and whether investing in this Fund is appropriate for you in light of your particular objectives, financial circumstances or needs. You should also obtain independent advice before investing in the Fund, particularly about individual matters such as taxation, retirement planning, and investment risk tolerance.

Our ultimate parent is Challenger Limited (ABN 85 106 842 371). Fidante is a member of the Challenger Limited Group of companies (**Challenger Group**). Fidante is not an authorised deposit-taking institution (**ADI**) for the purpose of the Banking Act 1959 (Cth), and its obligations do not represent deposits or liabilities of an ADI in the Challenger Group (Challenger ADI) and no Challenger ADI provides a guarantee or otherwise provides assurance in respect of the obligations of Fidante. Investments in the Fund are subject to investment risk, including possible delays in repayment and loss of income or principal invested. Accordingly, the performance, the repayment of capital or any particular rate of return on your investments are not guaranteed by any member of the Challenger Group.

Additional information about investing

Initial Investments

Each person should obtain and consider the Fund's PDS, AIB and TMD before making a decision about whether to invest or continue to hold the Fund. A copy of the Fund's PDS, AIB and TMD can be obtained from your financial adviser, by calling the Fidante Investor Services Team on 1300 721 637, or at www.fidante.com.

Investments can be made from an account held in your name via direct debit, BPAY or electronic funds transfer. All direct debits and BPAY payments are subject to the Direct Debit Service Agreement and BPAY Service Agreement available on the Fidante website.

When you make your initial investment in the Fund, we will email you a confirmation letter and log-in details to the secure online portal InvestorServe where you can manage your investment. Please refer to 'Keeping you informed' for more information.

Direct Investors

You can invest in the Fund by following these easy steps:

- 1 Read and understand this PDS, AIB and the Fund's TMD all available on our website or in hard copy on request; and
- 2 Complete and submit the online application form on our website by clicking "Invest Online". Please note paper application forms are available on our website or on request.

Indirect Investors

If you are an Indirect Investor you must complete the documentation which the platform operator requires. Please contact the relevant platform operator directly with any enquiries.

Additional one-off investments

Once you have made your initial investment in the Fund, you can make additional one-off investments and/or regular monthly investments via the Regular Investment Plan.

Each person should obtain and consider the Fund's PDS, AIB and TMD before making a decision about whether to make additional investments in the Fund. A copy of the Fund's PDS, AIB and TMD can be obtained from your financial adviser, by calling the Fidante Investor Services Team on 1300 721 637, or at www.fidante.com.

Investments can be made from an account held in your name via direct debit, BPAY or electronic funds transfer. All direct debits and BPAY payments are subject to the Direct Debit Service Agreement and BPAY Service Agreement available on the Fidante website.

Direct Investors

You can make additional investments in the Fund by following these easy steps:

- 1 Read and understand this PDS, AIB and the Fund's TMD all available on our website or in hard copy on request; and
- 2 Complete and submit the online application form on our website by clicking "Invest Online". Please note paper application forms are available on our website or on request.

Indirect Investors

If you are an Indirect Investor you must complete the documentation which the platform operator requires. Please contact the relevant platform operator directly with any enquiries.

Regular Investment Plan

The Regular Investment Plan (**RIP**) enables you to invest in the Fund each month via direct debit from a nominated account held in your name.

Direct Investors

You can set up an RIP via our online application process.

Your nominated account will be debited on or around the next business day after the 14th day of each month for the specified amount. Your application to commence an RIP must be received at least three business days before the 14th day of the month in which you wish your instructions to take effect. Participation in the RIP will be renewed annually by continuing to make contributions.

Units will be issued on the basis of information contained in the PDS and this document current at the time the contributions are made. Should a replacement PDS or additional important information be issued, we will notify you and inform you of any changes or updates if you continue to participate in the RIP. You can amend, suspend, or cancel your RIP at any time.

You should ensure that we receive your instructions to amend, suspend or cancel your RIP at least three business days before the 14th day of the month in which you wish your instructions to take effect. Any request received after this may result in the change not being effective until the following month.

If two consecutive debits are dishonoured due to insufficient funds, we will suspend your RIP.

Please ensure you have considered the Fund's PDS, AIB and TMD before making a decision about whether to set up an RIP. A copy of the Fund's PDS, AIB and TMD can be obtained from your financial adviser, the Fidante Investor Services Team on 1300 721 637, or at www.fidante.com.

Indirect Investors

RIP is not available to Indirect Investors.

Incomplete or rejected application forms

Under the Fund's constitution, we can accept or reject any application for units and are not required to give any reason or grounds for such a refusal.

Monies from incomplete applications will generally be held on trust for a maximum period of 30 days in a non-interest bearing account commencing on the day we receive the monies. After this period, your funds will be returned to the source of payment.

Once we receive your completed application form, the monies held will be divided by the next determined unit price to calculate the number of units that will be allocated to you.

Customer Identification Program

Direct Investors

As part of the application process, we will electronically verify your identity. If your identity can not be electronically verified, under relevant laws, we may be required to ask you for additional identity verification documents and/or information about you, anyone acting on your behalf, or any related persons.

In certain circumstances we may require the identity verification documentation to be certified.

Where the Application Form is signed under Power of Attorney we will also require a certified copy of the Power of Attorney document and a specimen signature of the attorney.

We may, where required, pass any information we collect and hold about you or your investment to the relevant government authority.

If any documentation requested by us is not in English, it must be accompanied by an original copy of an English translation prepared by an accredited translator.

If we do not receive all required valid customer identity verification information and/or documents, we will not be able to commence your investment. We will contact you as soon as possible if we require more information. We may also seek to re-verify your identity or collect additional information at any time after your investment has commenced.

Indirect Investors

Indirect Investors should refer to their platform operator for details of their customer identification program.

Additional information about withdrawing

How to make a withdrawal

Direct Investors

Direct Investors can request a withdrawal by lodging a Fidante Withdrawal Request Form or in writing. A withdrawal request, either in whole or in part, once received by us may not be withdrawn without our agreement. Withdrawals can only be made to an Australian bank account held in your name.

We will require the following information when you make your withdrawal request:

- your account number;
- the full name(s) in which your investment account is held;
- the amount (dollars or units) you wish to withdraw;
- method of payment; and
- a daytime telephone number.

If you originally invested via direct debit and you make a withdrawal within the first three months of making your investment, we will only pay the withdrawal proceeds to the account that was debited when making your initial investment.

Indirect Investors

You must complete the withdrawal documentation required by the platform operator.

Processing your withdrawal

While withdrawals are normally processed and paid within five business days of receiving your valid withdrawal request, we may take significantly longer than this in certain circumstances (please refer to 'Delay of withdrawal payments').

For Direct Investors, we can make withdrawal payments by direct credit to your nominated account. You agree that if the type of payment you request results in bank fees being charged, we may deduct those fees from your withdrawal proceeds before remitting the net amount to you.

Generally, if the payment for your withdrawal is returned to us and remains outstanding for 6 months, we may reinvest the proceeds in the Fund. Any reinvestment of a withdrawal amount will be processed using the investment unit price current at the time of the reinvestment transaction. For more information on unit prices, refer to 'How unit prices are calculated' below.

We may determine that some or all of the withdrawal amount consists of income (which may include net capital gains), rather than capital of the Fund.

We will advise you when this is the case as soon as practicable after the end of the financial year in which the withdrawal occurred.

We have the discretion to transfer assets of the Fund to you (instead of cash) in payment (partly or fully) of the proceeds of your withdrawal request less any costs for the transfer.

We have the right to compulsorily redeem units in issue, if we give at least 30 days prior written notice to affected investors.

Delay of withdrawal payments

Withdrawals are normally processed and paid within five business days of receiving a valid withdrawal request; however, we do not guarantee this timeframe and we may take significantly longer to pay withdrawals in certain circumstances.

Withdrawals may be delayed in the following circumstances:

- under the Fund's constitution, we have 30 days to satisfy a valid withdrawal request;
- if the Fund becomes illiquid, we are not required to pay withdrawals unless we offer to do so (refer to 'If the Fund becomes illiquid' below).

Where multiple delays are applicable, timeframes may apply cumulatively.

Additionally, if we did not receive all required identity verification documents at the time of investment or your withdrawal request is incomplete, we may not process your withdrawal request until these documents are received or further requirements are met.

If the Fund becomes illiquid

If the Fund is not liquid (as defined in the Corporations Act), unitholders will only be able to withdraw from the Fund if we make an offer of withdrawal to unitholders. If we do make such an offer, unitholders may only be able to withdraw part of their investment. There is no obligation for us to make withdrawal offers.

Under the Corporations Act, the Fund is regarded as liquid if liquid assets account for at least 80% of the value of the assets of the Fund. Liquid assets generally include money in an account or on deposit with a bank, bank-accepted bills, marketable securities and property of the kind prescribed under the Corporations Act.

As at the date of this PDS, the Responsible Entity expects that the Fund will be liquid.

Additional information about transactions

Transferring ownership

Direct Investors

You can generally transfer some or all of your investment to another person in such a manner and subject to such conditions as required by law and that we, from time to time, prescribe. We are not obliged to register a transfer that does not meet these criteria, or where there is an amount payable to us by the transferee or the transferor (as applicable) in respect of the units being transferred. We recommend that you obtain your own professional advice regarding your position before transferring some or all of your investment, as tax and social security laws are complex and subject to change, and investors' individual circumstances vary.

Please contact us for further information about transferring units.

Indirect Investors

Contact the platform operator if you wish to transfer your units.

Transaction cut-off times

Direct Investors

Generally, if your valid investment or withdrawal request is received in our Sydney office before 3:00pm Sydney time on a New South Wales business day (referred to as the transaction cut-off time), it will usually be processed using the unit price determined as at the close of business on that day. If your valid investment or withdrawal request is received after the transaction cut-off time, or on a non-business day, it will usually be processed using the applicable unit price calculated as at the close of business on the next business day.

Indirect Investors

You should contact your IDPS operator for information regarding transaction cut-off times.

Online transacting terms and conditions

Direct Investors

You should understand that a person without your authority could login to your account via InvestorServe and, by pretending to be you, make changes to your account.

We take care when acting on instructions. In doing so, we have in place internal policies and procedures designed to reduce the risk that fraud may be committed in relation to your account. We currently only allow withdrawals to be made via the Fidante Withdrawal Request Form or in writing.

In using the online transacting facility, you agree that we are not responsible to you for any fraudulently completed communications and that we will not compensate you for any losses if we have complied with internal policies and procedures, and we have not been negligent, fraudulent or dishonest.

We will only act on completed communications that we receive.

If the details of the bank account quoted at the time of making a withdrawal do not match the nominated bank account we have on file, the withdrawal will not proceed. You can change your bank account details online via InvestorServe or in writing. If you lodge a withdrawal request within 90 days of changing your bank account on file, we will follow up with a call before processing the request.

We may cancel or vary these requirements by giving you notice in writing.

Indirect Investors

You should contact the platform operator for information regarding how to transact.

Changes to permitted transactions

We can vary the minimum investment amounts for the Fund at any time and can also change the application or withdrawal transaction cut-off time. Under the Fund's constitution, we can refuse applications for any reason. Where we consider it to be in the interests of unitholders (such as an inability to value the Fund), we may suspend application or withdrawal requests. Any application or withdrawal requests received during the period of suspension, or for which a unit price has not been calculated or confirmed prior to the commencement of a period of suspension, will be deemed to have been received immediately after the end of the suspension period.

How unit prices are calculated

Unit prices are determined in accordance with the Fund's constitution and are usually calculated each NSW business day. The calculation of both the investment unit price and the withdrawal unit price is based on the net asset value (**NAV**) adjusted by the buy/sell spread. For information on buy/sell spreads, refer to 'Buy/sell spreads' in 'Additional information about fees and costs'.

For investment and withdrawal unit prices, the NAV is the value of all the Fund's assets attributed to the Fund less the value of the Fund's liabilities at the valuation time. When calculating the NAV, we must use the most recent valuations of the Fund's assets and the most recent determination of the liabilities. Where more than one class is on issue, the investment and withdrawal prices will be calculated for the relevant class using the NAV that is referable to that particular class.

The Fund's assets and liabilities are usually valued each NSW business day.

Generally, for unit pricing purposes, listed securities are valued using the last available market close price quoted on the relevant exchange. Other assets are generally valued at recoverable value. Any income entitlements, cash at bank, and any amount of Goods and Services Tax (**GST**) recoverable by the Fund from the Australian Taxation Office are also included in asset values used to calculate the investment and withdrawal unit prices.

Generally, for unit pricing purposes, liabilities are valued at cost. Liabilities also include an accrual for management costs (which includes management fees up to and including the calculation date) and for costs (if any) that an investor would ordinarily incur when investing in the Fund's underlying assets.

Where we receive a valid transaction request before the transaction cut-off time of 3:00pm (Sydney time) on a NSW business day, the unit price will generally be determined at the next valuation time after that transaction cut-off time. This is typically referred to as 'forward pricing'.

In rare circumstances, we may suspend unit pricing where, acting in accordance with our Responsible Entity obligations to unitholders, we consider it impracticable to calculate a NAV.

We have a Unit Pricing Permitted Discretions Policy. The policy sets out how we will exercise any discretions in relation to unit pricing (such as, for example, how often we determine unit prices and valuation methodology). If we depart from our policy, we are also required to record details of this departure. You can obtain a copy of this policy or any recorded departures free of charge by calling us.

Additional information about distributions

If we pay a distribution, as a Direct Investor you may choose to have your distribution reinvested in additional units in the Fund, or paid directly to your nominated account with an Australian financial institution. Unless you have indicated otherwise, we will reinvest your distributions.

As an Indirect Investor you should contact your IDPS operator for distribution payment or reinvestment options.

The price of units issued on reinvestment of distributions is the investment price for units next determined after the close of business on the last day of the distribution period. There is no buy/sell spread reflected in this investment price. The amount of each distribution may vary. Your share of any distribution

depends on how many units you hold at the end of the relevant period as a proportion of the total number of units in the relevant class on issue at that time and the amount of distributable income referable to those units and that class.

As distributable amounts are a component of the unit price, unit prices normally fall by the distribution amount following a distribution.

The amount of income distributed each year will generally be the distributable income received by the Fund, unless we decide to distribute a different amount. Any net capital gains derived by the Fund during the financial year are generally distributed in the June distribution period.

If you invest just prior to a distribution payment, you may receive some of your investment back immediately as income. Conversely, if you withdraw from the Fund just before a distribution, you might turn income into a capital gain or reduce your capital losses.

Generally, if any distribution payments are returned to us and remain outstanding for 6 months, we may reinvest those distributions and amend your future distribution method to reinvest.

Generally, if any distribution payments made by electronic transfer of funds is unsuccessful three times, the money may be reinvested and your future distribution payment method will be updated to re-invest.

Any reinvestment of an unclaimed or returned distribution will be processed using the investment unit price current at the time of the reinvestment transaction.

If you wish to change your distribution payment instructions, please follow the process outlined below.

Direct Investors

Please log into InvestorServe to update your details.

Indirect Investors

Please contact your platform operator for the documentation required.

Keeping you informed

You can access your account information through the secure online access system InvestorServe, which is available 24 hours a day, 7 days a week. InvestorServe is a secure online service which provides access to up-to-date information about your investments.

Through InvestorServe you can:

- view your account balances and transaction histories;
- view all confirmations and statements relating to the Fund and your investment (this includes distribution and tax statements, transaction confirmations) ;
- view your annual periodic statement;
- view and change your contact details including banking details and distribution payment preference;
- select the way you would prefer us to communicate with you; and
- if applicable, set up, modify or cancel your Regular Investment Plan.

At any time, you may request a paper copy of any statement or confirmation by calling the Fidante Investor Services Team on 1300 721 637. We recommend that you check all statements and transaction confirmations carefully. If there are any discrepancies, please contact us or your financial adviser.

Indirect Investors

Please contact the platform operator for information regarding your investment in the Fund.

Keeping us informed

Direct Investors

Our records about you are important.

Please ensure your personal details on your account are up to date. You can update these details via InvestorServe at any time. This includes a new postal address, a change of name or new bank account details. We will send you confirmation of any changes that you request us to make to your personal details.

Indirect Investors

As an Indirect Investor, you should notify the platform operator of any changes to your personal details.

What happens if you choose not to disclose certain information?

If you choose not to disclose certain information, the following may apply:

- Account details: we will not be able to pay withdrawal proceeds or income distributions to you.
- Tax residency information: we may not be able to process your request, or we may be required to notify the ATO.
- Incomplete application form: unless otherwise agreed, we will not be able to process your investment request.
- If you do not provide all relevant identity verification documents, we will not be able to process your investment request.

For Australian resident investors, if you choose not to disclose your TFN, TFN exemption or ABN, we have to deduct tax at the highest marginal tax rate plus Medicare levy (and any other levies we are required to deduct, from time to time) from any amounts attributed or distributed to you (refer to 'Tax File Number' in 'Taxation considerations').

Up-to-date information about the Fund

You can obtain up-to-date Fund performance, actual asset allocations and Fund size information from the Fund's regular report available at www.fidante.com.

A paper copy of any updated information will be given to you, without charge, on request by contacting us.

If the Fund is a "disclosing entity" under the Corporations Act, it will be subject to regular reporting and disclosure obligations. Copies of documents lodged with the Australian Securities and Investments Commission (ASIC) in relation to the Fund may be obtained from, or inspected at, an ASIC office.

You can obtain copies of the Fund's most recent annual financial report by visiting the Fidante website. A paper copy of the Fund's annual financial reports, any continuous disclosure notices, and any half yearly financial report will also be given to you, without charge, on request.

As Responsible Entity of the Fund, we may be subject to continuous disclosure obligations that require us to make material information available to investors. You can obtain a copy of the Fund's continuous disclosure information by visiting the Fidante website.

How the Fund is governed

The Fund's Constitution, together with the Corporations Act and other laws, governs the way in which the Fund operates, including the rights, responsibilities and duties of the Responsible Entity and unitholders.

The Constitution

The Constitution contains the rules relating to a number of issues including:

- unitholder rights;
- the process by which units are issued and redeemed;
- the calculation and distribution of income;
- the investment powers of the Responsible Entity;
- the Responsible Entity's right to claim indemnity from the Fund and charge fees and expenses to the Fund;
- the creation of other classes of units; and
- the termination of the Fund.

The Constitution allows for different classes of units to be established and all rights, entitlements, obligations, assets, liabilities and calculations of a unit are referable to that class of units.

It is generally thought that unitholders' liabilities are limited to the value of their holding in the Fund. It is not expected that a unitholder would be under any obligation if a deficiency in the value of the Fund was to occur. However, this view has not been fully tested at law.

Unitholders can inspect a copy of the Constitution at our head office or we will provide a copy free of charge, on request.

We may alter the Constitution if we reasonably consider the amendments will not adversely affect unitholders' rights. Otherwise (subject to any exemption under the law), we must obtain unitholder approval at a meeting of unitholders.

We may retire or be required to retire as Responsible Entity if unitholders pass a resolution approving our removal.

Termination

The Constitution, together with the Corporations Act, governs how and when the Fund may be terminated. We may terminate the Fund at any time by written notice to unitholders. On termination, a unitholder is entitled to a share of the net proceeds of our realisation of the assets in proportion to the number of units they hold in the Fund.

Unitholder meetings

The conduct of unitholder meetings and unitholders' rights to requisition, attend and vote at those meetings are subject to the Corporations Act and (to the extent applicable) the Constitution.

Compliance plan and compliance committee

We have lodged the Fund's compliance plan with ASIC and established a compliance committee for the Fund with a majority of external members. The compliance plan sets out how we will ensure compliance with both the Corporations Act and the Fund's constitution.

The compliance committee's role is to monitor compliance with the compliance plan. It must also regularly assess the adequacy of the compliance plan and report any breaches of the Corporations Act or the Fund's constitution to us. If we do not take appropriate action to deal with the breach, the compliance committee must report the breach to ASIC.

The Fund and the compliance plan are required to be audited annually.

Other parties

We have engaged a third party registry provider that is responsible for maintaining the register of unitholders which includes all details of an investor's account and investments. The registry provider is responsible for sending all correspondence related to unitholders investments as well as providing customer service support.

In addition we have also appointed a third party custodian to hold the assets of the Fund. The custodian has no independent discretion with respect to the holding of assets and is subject to performance standards.

We have also appointed a registered company auditor. The auditor's role is to provide an audit of the financial statements of the Fund each year, as well as performing a half-yearly review (if required), and to provide an opinion on the financial statements.

Additional information about the Fund's investments

About the Fund's risk level

The risk level, also known as the Standard Risk Measure, is based on the estimated number of negative annual returns that a managed investment scheme may experience in any 20-year period. In other words, it is a measure of the expected variability of the return of the Fund.

The Fund's anticipated risk level is 'Very high risk' - the Fund offers the potential for favourable levels of return over the long term but may exhibit higher levels of volatility with the potential for capital loss over the short to medium term. The estimated number of negative annual returns in any 20-year period based on this risk level is approximately greater than 6. Note that this is an estimate only. Negative annual returns may or may not occur in consecutive years and, should they be negative, the estimate does not indicate the size of the potential negative return (which may vary considerably from strategy to strategy).

The stated risk levels are based on industry guidance and are designed to allow investors to compare investments with different investment strategies and characteristics. However, investment managers and investment administrators may employ different methodologies to determine a risk level and therefore may not be representative of the same considerations. Furthermore, it is not a complete assessment of the risks of investing, nor does it indicate if an investment strategy is designed to meet an investor's investment objectives.

For further information, or to ask about the methodology for determining the risk level, please call the Fidante Investor Services Team.

Borrowings of the Fund

The Fund's Constitution allows for borrowing; however, we will generally not borrow on behalf of the Fund, except from time to time to cover short-term cash flow needs or if emergency or extraordinary situations arise. Borrowings may be from a variety of sources, including related entities. Where funds are borrowed from related entities, the terms are set on a commercial and arm's length basis and will be for reasonable remuneration.

The availability and terms of borrowings are subject to the market for borrowings (including market conditions in debt and other markets) and therefore borrowings may not always be available. Lenders may refuse to provide borrowings, renew an existing borrowing facility or refuse to renew on commercially acceptable terms. This may be for reasons specific to the Fund or due to market-wide events.

We may change the lending financial institution (if any) from time to time and may also seek to vary the terms of any borrowing facility where it is believed it would be in the best interests of unitholders.

Asset allocation ranges

The Fund gains exposure to various investment markets and asset classes by investing into direct assets and/or indirectly via managed funds. References to asset allocations are references to the exposure of the Fund, not necessarily the physical unit or security held.

Refer to 'How we invest your money' for strategic asset allocations for the Fund.

If market movements, investments into or withdrawals from the Fund, or changes in the nature of an investment cause the Fund to exceed these asset allocations, or a limit set out in the PDS, this will be addressed by us or SG Hiscock as soon as reasonably practicable.

How the Fund uses derivatives

The Fund may at times invest in or obtain exposure to derivatives, such as futures and options.

The term 'derivative' is used to describe any financial product that has a value that is derived from another security, liability, or index.

Derivatives may be used to gain exposure when they offer a more cost-effective way of purchasing the underlying security. Derivatives can be used to implement investment decisions (including hedging), and as a risk management tool (such as managing the effect of interest rates or foreign currency movements). They may also be used to adjust or implement investment decisions and to gain, or avoid, exposure to a particular market rather than purchasing physical assets.

Derivatives will be used as a risk management tool only. This includes using derivatives to manage the effect of interest rate or foreign currency movements, and to gain, or avoid, exposure to a particular market. The Fund will limit its use of derivatives to 10% of the Fund's net asset value.

The Fund's constitution permits the use of derivatives; however SG Hiscock does not intend to gear the Fund through the use of derivatives. If market movements, investments into or withdrawals from the Fund, or changes in the nature of an investment result in the Fund being geared through derivatives, this will be addressed by SH Hiscock or us as soon as reasonably practicable. Where the Fund uses derivatives, SG Hiscock aims to manage the Fund so as to keep sufficient liquid assets in the Fund to meet all obligations associated with the derivatives.

The use of derivatives may expose the Fund to certain risks. Please refer to 'Derivative risk' for more information.

Labour standards or environmental, social or ethical considerations

The Responsible Entity (Fidante) has delegated investment decisions for the purposes of selecting, retaining or realising investments for the Fund to SG Hiscock who operates the fund in accordance with the investment management agreement. Fidante's parent Challenger Limited is a member of the PRI Association (PRI), a leading promoter of responsible investment practices supported by the United Nations.

Fidante incorporates consideration of environmental, social and governance considerations when selecting, appointing and monitoring investment managers. Fidante Partners does not adhere to any particular set of labour standards, environmental, social and ethical considerations.

SG Hiscock may, from time to time, take into account labour standards or environmental, social or ethical (ESG) considerations when selecting, retaining or realising investments.

As a business, SG Hiscock takes these issues seriously. Although not a signatory to the PRI, nor adhering to any particular set of standards or timeframes, SG Hiscock recognises that the PRI provide a useful framework to assist investors in considering these issues.

SG Hiscock considers ESG as a factor in the overall assessment of investments. SG Hiscock will consider general ESG factors such as (but not limited to) labour relations, workplace health and safety, potential environmental impacts, quality of environmental management systems and whether a target company has clearly defined code of conduct and ethics policies. The extent to which these factors are taken into account will depend on a fund's investment timeframe. For example, it is not necessarily appropriate for a very high turnover fund to account for specific factors which may take years to become investment-influencing propositions. On the other hand, a fund with a turnover reflecting a longer term investment timeframe, can and should incorporate these factors into the investment decision making process, as the likelihood, impact and consequence of these factors on investment returns will be more apparent within this timeframe.

Companies are monitored for any material changes to their ESG process along with other key fundamental criteria; however, there is no set timeframe for monitoring these considerations. SG Hiscock maintains a strong sell discipline in relation to companies that no longer meet its investment criteria, which may include consideration of a company's ESG policies and practices.

Additional information about significant risks

The PDS summarises the significant risks associated with investing in the Fund. The below table includes further explanation of these risks.

Risk	Explanation
Collateral risk	The Fund enters into derivatives arrangements that require it to deliver (or 'post') collateral to the derivative counterparty or clearer. As a result, the Fund may be exposed to certain risks in respect of that collateral including the credit risk of the counterparty or clearer.
Concentration risk	The risk associated with a fund that concentrates its investments in a small number of securities or invests in a small subset of an asset class. The performance of such a fund tends to be more volatile than the performance of a more diversified fund because the concentrated fund's performance is affected to a greater extent by the performance of particular assets.
Counterparty risk	The Fund is, to a certain extent, reliant on external counterparties in connection with its operation and investment activities. There is a risk with these arrangements that the other party to a contract (such as derivatives contract, physical security or foreign exchange contract trade) may fail to perform its contractual obligations either in whole or part. In such circumstances, any collateral lodged with counterparties related to these derivatives may also be at risk. This may result in the investment activities of the Fund being adversely affected.
Derivative risk	<p>The value of a derivative is linked to the value of an underlying asset and can be volatile. While the use of derivatives offers the opportunity for higher gains, it can also magnify losses to the Fund. Risks associated with using derivatives might include the value of the derivative failing to move in line with that of the underlying asset, potential illiquidity of the derivative, the Fund not being able to meet payment obligations as they arise or the risk that the other party with whom the derivative contract is held will fail to perform its contractual obligations. Refer to 'Counterparty risk' and 'Collateral risk'.</p> <p>SG Hiscock does not intend to gear the Fund through the use of derivatives. SG Hiscock aims to keep derivative risk to a minimum by:</p> <ul style="list-style-type: none"> • constantly monitoring the Fund's use of derivatives; • aiming to ensure that the Fund keeps sufficient liquid assets to meet all obligations, costs, liabilities and potential losses associated with derivatives; and • entering into derivative contracts with reputable counterparties.
Equity security risk	<p>The value of an individual equity security (also known as a share) may be affected by market sentiment and other factors that may impact the performance of the actual company over short or extended periods of time. Investing in shares of a company will expose an investor to many of the risks to which the individual company is itself exposed. They include many factors, such as changes in management, technology, and a company's financial health, actions of competitors, regulators and market trends. Share markets tend to move in cycles, and the individual share price of a security may fluctuate.</p> <p>Equities may also be affected by dilutive equity issuance or changes to dividend policy.</p> <p>Such risk is considered by SG Hiscock through its investment process and managed by maintaining a diversified portfolio of securities.</p>
Fund risk	<p>Fund risk refers to specific risks associated with the Fund, such as termination, changes to fees, or changes in government policies (including taxation, investment sanctions, regulations and laws) that may affect the Fund or investors in the Fund. We may close the Fund to further investments if, for example, we consider it appropriate given the investment objective and investment strategy of the Fund. We may also terminate the Fund by notice to unitholders.</p> <p>Your investment in the Fund is governed by the terms of the constitution and the PDS of the Fund (each as amended from time to time), the Corporations Act (where applicable), and other laws. The value or tax treatment of an investment in the Fund or its underlying assets, or the effectiveness of the Fund's trading or investment strategy may also be adversely affected by changes in government policies (including taxation), regulations and laws, or changes in generally accepted accounting policies or valuation methods. Such changes could also make some investors consider the Fund to be a less attractive investment option than other investments, prompting greater than usual levels of withdrawals, which could have adverse effects on the Fund.</p> <p>There is also a risk that investing in the Fund may give different results from holding the underlying assets of the Fund directly because of:</p> <ul style="list-style-type: none"> • income or capital gains accrued in the Fund at the time of investing; and • the consequences of investment and withdrawal decisions made by other investors in the Fund; for example, a large level of withdrawals from the Fund may lead to the need to sell underlying assets which would potentially realise income and/or capital gains. <p>We aim to manage these risks by monitoring the Fund and by acting in investors' best interests. In the event of winding up the Fund, we will realise all the Fund's assets, which will generally result in the crystallisation of tax positions (both income and capital) at that time.</p>

<p>Liquidity risk</p>	<p>Liquidity risk is the risk that the Fund will not have adequate cash resources to meet its short-term financial commitments as they fall due (including meeting the Fund's objective and investors' expectations for payment of redemptions).</p> <p>Liquidity risk may also occur due to the absence of an established market or a shortage of buyers for an investment which can result in a loss if the holder of the investment needs to sell it within a particular timeframe.</p> <p>Liquidity risk can also occur due to pandemics and other widespread public health emergencies such as the outbreak of COVID-19 which may cause volatility and declines in markets for financial assets (refer to 'Market risk' below) which in turn may impact the liquidity of the Fund.</p> <p>Certain investments may be typically less liquid than other investments or pose a higher risk of becoming illiquid during times of market stress. The less liquid the investment, the more difficult it may be to sell the investment when it is desirable to do so or to realise what the investment manager perceives to be fair value in the event of a sale.</p> <p>If an investor or a group of investors in a fund with exposure to less liquid assets seek to make large withdrawals, then selling assets to meet those withdrawals may result in a detrimental impact on the price we receive for those assets. In certain circumstances, we may suspend or otherwise restrict withdrawals (refer to 'Withdrawal risk') to allow sufficient time for a more orderly liquidation of assets to meet the withdrawals.</p>
<p>Market risk</p>	<p>The Fund may experience investment losses due to factors that result in market volatility and disruption and affect the overall performance of the financial markets. These events may include changes in spreads, macro-economic, regulatory, social and political conditions, weather events, terrorism, changes in technology, the environment and market sentiment and pandemics and other widespread public health emergencies including outbreaks of infectious diseases such as COVID-19.</p>
<p>Property-related risk</p>	<p>The value of property securities and any income flow will rise or fall with changes to a number of factors including interest rates, general economic factors, tax and stamp duty status, and share price movements in different regions. Returns from property securities are affected by factors including the underlying strength of the company or trust's cash flows, balance sheet strength, management, and the company's own investments in property and construction. Also, returns from listed property securities are affected by market supply and demand for property and the level of income that properties produce.</p> <p>Through its investments in property securities and property-related securities, the Fund may have exposure to direct property. Direct property is affected by general risks outlined in this section. Particular external factors impacting direct property also include liquidity, interest rates, the quality of properties, proximity of competing properties, council and other zoning restrictions, current and expected income, capital expenditure, availability and cost of financing, developments and other economic conditions that may affect supply and demand, and construction or refurbishment costs. It may not be possible to obtain commercially acceptable insurance on direct property assets for every risk which may damage or impact the direct property asset. This includes, but is not limited to, being unable to obtain commercially acceptable insurance for damage to direct property caused by terrorism, earthquakes and other external events.</p>
<p>Service provider risk</p>	<p>The Fund may be reliant on external service providers in connection with their operation, such as the custodian and registry provider. There is a risk with these arrangements that the service providers may default in the performance of their obligations or seek to terminate the services with the result that the Fund may be required to seek an alternative supplier and, in the interim, investment activities and other functions of the Fund may be affected.</p>
<p>Significant Investor Visa (SIV) Compliance Risk</p>	<p>Significant Investor Visa Compliance Risk refers to a situation in which an investment in a SIV Complying Investment becomes non-compliant due to changes by the Australian Government to the requirements of the SIV Framework.</p> <p>If a situation occurs where the assets in the Fund are no longer able to remain compliant with the SIV requirements as set by the Australian Government, there is a risk that your investment in the Fund may no longer remain compliant with the requirements of the SIV Framework and you may make a decision to withdraw from the Fund. This situation may arise due to changes to the Australian Government requirements of the SIV Complying Investment Framework. Please refer to the information in the PDS and AIB in relation to withdrawing and how managed investment schemes are taxed.</p>
<p>Withdrawal risk</p>	<p>If a situation occurs where the assets that the Fund invests in are no longer able to be readily bought and sold, or market events reduce the liquidity of a security or asset class, there is a risk that the generally applicable timeframe of 5 business days for meeting withdrawal requests may not be able to be met. This is because it may take longer to sell these types of investments at an acceptable price. In this case, withdrawals from the Fund may take significantly longer than the generally applicable timeframe.</p> <p>The maximum timeframe in which we, as Responsible Entity, have to meet a withdrawal request is set out in the constitution of the Fund. Where the Fund is not liquid (as defined in the Corporations Act), you may only withdraw when we make an offer to withdraw to all investors, as required by the Corporations Act. Please refer to 'Additional information about withdrawing' for further information about an investor's ability to withdraw when the Fund is liquid, including the timeframes, and an investor's ability to withdraw if the Fund is not liquid.</p>

Important investment terms

Investment term	Explanation
bottom-up investing	An investment approach where the focus is on a specific company rather than on the industry in which that company operates or on the economy as a whole.
fundamental analysis	Fundamental analysis studies everything that can affect the security's value, including macroeconomic factors (like the overall economy and industry conditions) and individual specific factors (like the financial condition and management of companies).
macroeconomic factors	Macroeconomics considers the economy as a whole. Macroeconomic factors include economic output, unemployment, inflation and savings and give an indication of how the economy is performing overall.
microeconomic factors	While macroeconomics deals with the economy as a whole, microeconomics is concerned with the study of individual players of the economy such as consumers and businesses and how their decision making will affect the economy.
property	Investments in property may involve investing in direct property, buying into listed or unlisted property trusts or purchasing property related securities. Property investments can be across a range of sectors including retail, commercial, industrial and residential. Property investments can earn income (often through rental return) and benefit from capital growth if the value of the property or investment rises.
real estate investment trusts (REITs)	A trust that is primarily invested in real estate and is listed and traded on a stock exchange.
top-down	An investment approach that involves looking at the big picture in the economy and financial world and then breaking this analysis down and looking at different industrial sectors which are then analysed in order to select those that are forecasted to outperform the market.

Fees and other costs

This section shows fees and other costs that you may be charged. The information in this summary can be used to compare costs between different simple managed investment schemes. These fees and costs may be paid directly from your account or deducted from the returns on your investment. Taxes are set out in another part of this document. You should read all the information about fees and costs because it is important to understand their impact on your investment.

--	-----	----------------

- 1 Unless otherwise stated, all fees and costs are quoted gross of income tax and any Goods and Services Tax (GST) and reduced by any input tax credits (ITCs) or reduced input tax credits (RITCs) as applicable. Where available, the prescribed RITC rate is currently 55% or 75%, depending on the nature of the fee or cost incurred. Due to the impact of GST, ITC and RITC calculations, actual fees may vary slightly from those stated and may be rounded to two decimal places.
- 2 For certain wholesale clients (as defined in the Corporations Act) we may, at our discretion, negotiate, rebate or waive all or part of our fees. Please refer to 'Can fees be different for different investors?' in 'Fees and other costs'.
- 3 All estimates of fees and costs in this section are based on information available as at the date of this PDS and reflect the Responsible Entity's reasonable estimates of the typical fees for the current financial year. The costs component of management fees and costs reflect the actual amount incurred for last financial year and the Responsible Entity's reasonable estimates where information was not available as at the date of this PDS (adjusted to reflect a 12-month period where applicable). All figures have been rounded to two decimal places. Please refer to 'Management fees and costs' under the heading 'Additional explanation of fees and costs' in the AIB for more information on management fees and costs.
- 4 Please refer to 'Other payments' under the heading 'Additional explanation of fees and costs' in the AIB for more information on costs that may be payable.
- 5 Transaction costs are the costs associated with the buying and selling of the Fund's assets. These costs include brokerage, settlement costs, clearing costs, stamp duty and other government taxes or charges and include the transactional and operational costs incurred by the underlying assets. Transaction costs are recovered from the assets of the Fund as and when they are incurred. The amount quoted reflects the transaction costs not recovered by the buy/sell spread for the last financial year (adjusted to reflect a 12 month period where applicable), including our reasonable estimates where information about actual costs was unavailable at the date of this PDS.
- 6 'Nil' means there is an entitlement under the constitution but we have elected not to charge it. 'Not applicable' means there is no entitlement for us to charge this fee.

Additional explanation of fees and costs

Management fees and costs

The costs component of management fees and costs in the 'Fees and costs summary' reflects the actual amount incurred for last financial year and the Responsible Entity's reasonable estimates where information was not available as at the date of this PDS (adjusted to reflect a 12 month period). All figures have been rounded to two decimal places.

You should refer to the Fund's website at www.fidante.com from time to time for any updates which are not materially adverse to investors.

The total management fees and costs for the Fund, outlined in the 'Fees and costs summary' above include the management fee, indirect costs and recoverable expenses. They do not include the performance fees (if payable), the Fund's buy/sell spread or the transaction costs of underlying assets (as set out below).

The Fund's management fees and costs are payable from the Fund's assets and are not paid directly from your account. Each of these are explained further below.

For details of the maximum fees permitted under the constitution of the Fund, please refer to 'Maximum allowable fees'.

Management fee

This is the fee charged for managing the investments, overseeing the Fund's operations and providing access to the Fund. The management fee of the Fund is 0.72% p.a. of the net asset value of the Fund. It is calculated and accrued daily as a percentage of the net asset value of the Fund and payable monthly in arrears.

Indirect costs

Indirect costs are those amounts paid from the assets of the Fund that we know or, where required, reasonably estimate will reduce, whether directly or indirectly, the return of the Fund or the amount or value of the income of, or property attributable to, the Fund or an interposed vehicle in which the Fund invests. Indirect costs do not include the management fee, performance fee, or recoverable expenses as set out in this section.

Indirect costs of the Fund are estimated to be 0.00% p.a. of the Fund's net asset value, based on the actual amount incurred for the previous financial year and the Responsible Entity's reasonable estimate of such costs where information was not available as at the date of this PDS or where the Responsible Entity was unable to determine the exact amount.

Recoverable expenses

Normal operating expenses

Under the constitution of the Fund, we are entitled to recover costs incurred in the performance of our duties as Responsible Entity of the Fund and in the administration and management of the Fund. These normal operating expenses include charges, fees, expenses, commissions, liabilities, and losses associated with the Fund.

The management fees and costs set out in the 'Fees and costs summary' above include normal operating expenses of 0.06% p.a. of the Fund's net asset value, which is the amount actually incurred by the Fund for the previous financial year including the Responsible Entity's reasonable estimates where information was unavailable at the date of this PDS. This amount is not an indication or guarantee of the amount that may be charged in the future. Normal operating expenses, and therefore total management costs, may vary each year.

Abnormal expenses

We may recover abnormal expenses (such as costs of unitholder meetings, changes to the Fund's constitution and defending or pursuing legal proceedings) from the Fund's assets. Whilst it is not possible to estimate such expenses with certainty, we anticipate that the events that give rise to such expenses will not occur regularly. In circumstances where such events do occur, we may decide not to recover these abnormal expenses from the Fund's assets.

The management fees and costs set out in the 'Fees and costs summary' above include abnormal expenses of 0.00% p.a. of the net asset value of the Fund, which is the amount actually incurred by the Fund for the previous financial year including the Responsible Entity's reasonable estimates where information was unavailable at the date of this PDS. If abnormal expenses are charged, they will be recovered from the Fund's assets when they are incurred.

The amount quoted is not an indication or guarantee of the amount that may be charged in the future. At the date of this PDS, there is no intention to hold a unitholder meeting nor are we aware of any legal proceedings the Fund may be a part of that may require us to recover associated abnormal expenses from the Fund.

Investment expenses

We currently pay the standard investment management costs of the Fund from the management fee.

Performance fee

The Responsible Entity does not have a right to charge a performance fee under the constitution of the Fund.

Transaction costs

Transaction costs are the costs associated with the buying and selling of the Fund's assets. These costs include brokerage, settlement costs, OTC derivative costs, clearing costs, stamp duty and other government taxes or charges and include underlying security buy/sell spreads and the transaction costs incurred by the underlying assets.

The total gross transaction costs incurred by the Fund for the last financial year were approximately 0.06% p.a. of the net asset value of the Fund, including the Responsible Entity's reasonable estimates where information was unavailable at the date of this PDS. The transaction costs shown in the 'Fees and costs summary' are net of any amount recovered by the buy/sell spread. The net transaction costs of the Fund (representing the total gross transaction costs minus the total amount recovered through the buy/sell spread of (+0.25%/-0.25%) incurred for the last financial year were 0.00% p.a. of the net asset value of the Fund, including the Responsible Entity's reasonable estimates where information was unavailable at the date of this PDS.

Transaction costs are not included in the management fees and costs. Instead they are paid from the assets of the Fund as and when they are incurred and therefore (where not otherwise recovered through the buy/sell spread) are an additional cost to you.

Total fees and costs

Based on the estimated costs outlined in this section, the estimated total of the amounts for management fees and costs, performance fees and net transaction costs is estimated as 0.78% p.a. of the net asset value of the Fund. The dollar figure of these estimated total management fees and costs, performance fees and net transaction costs based on an investment balance of \$50,000 is \$390.

Buy/sell spreads

The buy/sell spread is a type of transaction cost that the Responsible Entity may charge to investors to recover some or all of the transaction costs of the Fund. The purpose of the buy/sell spread is to ensure that only those investors transacting in the Fund's units at a particular time bear the Fund's costs of buying and selling the Fund's assets as a consequence of their transaction.

The buy/sell spread for the Fund is stated as a percentage of the investment or withdrawal amount and is the difference between the investment unit price and the withdrawal unit price. It reflects an estimate of the transaction costs expected to be incurred in buying and selling the Fund's assets as a result of investments and withdrawals made by investors.

This estimate may take into account factors such as (but not limited to) historical transaction costs and anticipated levels of investments and withdrawals. It is expected that brokerage will make up the vast majority of transaction costs.

The current buy/sell spread of the Fund is +0.25%/-0.25%; however a different buy/sell spread may apply if the estimate changes.

We have discretion to waive or reduce the transactional and operational costs on investments or withdrawals where no or reduced costs are incurred. We will provide notification to unitholders of any changes to buy/sell spread transaction costs on the Fidante website.

Any difference between total gross transaction costs and the amounts recovered from the buy/sell spread from transacting investors is an additional cost that is borne by all investors of the Fund.

Please note that while the buy/sell spread is an additional cost to you, it is not a fee paid to us or SG Hiscock. It is paid to the Fund and is reflected in the Fund's unit price.

Buy/sell spread example

- The current buy spread on an investment in the Fund is +0.25%. Therefore, the cost of an investment of \$50,000 into the Fund would be \$125.
- The current sell spread on a withdrawal from the Fund is -0.25%. Therefore, the cost on a withdrawal of \$50,000 from the Fund would be \$125.

Please note that this is just an example. In practice, actual transaction costs will depend on the amount you invest or withdraw.

Further information about fees and costs

Can fees be different for different investors?

Yes; we may negotiate, rebate, or waive fees for wholesale clients (as defined in the Corporations Act), where permitted by law. We do not negotiate fees with retail investors.

Borrowing costs

Borrowing costs are the costs associated with borrowing money or securities. The Fund may enter into borrowing facilities and, if so, the costs of a borrowing facility would be deducted from the Fund and not paid for by us from the fees we receive. Borrowing costs are not part of transaction costs, and are not shown in the 'Fees and costs summary'.

Government charges and GST

Government taxes such as stamp duty and Goods and Services Tax (**GST**) may apply to the Fund or your investment. Unless otherwise stated, all fees and costs are quoted inclusive of any GST and net of any input tax credits (**ITCs**) or reduced input tax credits (**RITCs**) that are expected to be available to the Fund.

Where RITCs are available, the prescribed rate is currently 55% or 75%, depending on the nature of the fee or cost incurred. Please refer to 'Taxation considerations' for additional information on GST.

Other payments

We may pay fees from our resources to some platform operators because they make the Fund available through their investment service. These fees may be rebated to the Indirect Investor investing in the Fund through the service or in some circumstances may be retained by the operator and include:

- for each platform operator, product access payments of up to \$20,000 p.a.; and/or
- where permitted by law, fund manager payments of up to 0.55% p.a. of the amount invested in the Fund.

These payments are made from our own resources so that they are not an additional cost to the Fund or its unitholders.

Maximum allowable fees

The Constitution allows certain maximum fees (see table below), and allows for expenses of the Fund (whether normal or abnormal expenses), such as registry, audit, taxation, advice, investment management and offer document costs to be paid directly from the Fund.

Fee	Maximum amount
Contribution fee (currently not charged)	6.00% of the contribution amount
Management fee (currently charged at 0.72% p.a.)	2.00% p.a. of the net asset value of the Fund
Withdrawal fee (currently not charged)	6.00% of the withdrawal amount
Switching fee (currently not charged)	2.00% of the redemption price

The Constitution permits us to charge a trustee fee of 0.04% p.a. of the value of the Fund that is invested in any of the other funds managed by SG Hiscock, plus 0.10% p.a. of the value of the balance of that fund, or, in certain circumstances specified in the Constitution, an amount no greater than an amount based on \$15,000 adjusted for inflation since 1992.

We are also entitled to be reimbursed for certain fees and expenses of a custodian or sub-custodian up to a maximum of 1% of the net asset value of the Fund. It is not our current intention to charge any of these fees and expenses. However, should we propose to change this we will give unitholders 30 days' written notice of the change. We also reserve the right to waive or reduce any of the fees and costs described in this PDS without prior notice.

Indirect (or alternative form) remuneration

We may provide benefits to other financial services intermediaries where the law permits. If we do, we will provide these benefits from our own resources so that they are not an additional cost to the Fund or its unitholders.

We maintain a register (in compliance with the relevant regulatory requirements) summarising alternative forms of remuneration that are paid or provided to Australian financial services licensees and/or their representatives. Registers are publicly available and if you would like to review our register, please contact us.

Can the fees change?

All fees can change. Reasons for this might include changing economic conditions and changes in regulation. We will give unitholders 30 days' written notice of any proposed increase in fees. We cannot charge more than the Constitution allows. If we wish to raise fees above the amount allowed for in the Constitution, we would first need to obtain the approval of unitholders. We also reserve the right to waive or reduce any of the fees and costs described in this PDS without prior notice.

Tax

Information about tax is set out in the 'Taxation considerations' section.

Taxation considerations

How managed investment schemes are taxed

The Australian tax commentary below is of a general nature and is based on our understanding of the Australian tax laws, as at the date of this document, as they relate to Australian resident individual taxpayers who hold their investment on capital account. It does not take into account the Australian or New Zealand tax treatment of New Zealand resident taxpayers. Any information contained therein should be used as a guide only and does not constitute professional taxation advice as individual circumstances may differ. Fidante is not a registered tax (financial) adviser and is not licensed or authorised to provide tax advice. We recommend that you obtain your own professional advice regarding your position, as tax and social security laws are complex and subject to change, and investors' individual circumstances vary.

Taxation of the Fund

The Attribution Managed Investment Trust (**AMIT**) legislation applies to qualifying Managed Investment Trusts (**MITs**) that make an irrevocable election to become an AMIT. The Responsible Entity has elected for the Fund to be an AMIT.

An AMIT must attribute its taxable income to investors on a fair and reasonable basis, and investors are advised of their share of the taxable income via an AMIT Member Annual Statement (**AMMA Statement**). The Fund will generally not be liable to pay income tax on its taxable income on the basis that it will attribute all determined trust components (i.e. assessable income, exempt income and non-assessable non-exempt income) to members each year. If the Fund were to cease being an AMIT, it should also generally not be liable to pay income tax on the basis that unitholders are presently entitled to the Fund's distributable income.

Other key features of the AMIT regime include: income character retention; deemed fixed trust status; an ability for adjustments and errors at the trust level to be carried forward and dealt with in the year in which they are discovered; adjustments (upwards and downwards) made to investors' cost bases for CGT purposes, and their costs for revenue purposes, where there are differences between the amount distributed and the amount attributed on an AMMA statement; and clarification of the treatment of tax deferred distributions.

The MIT capital account election regime permits eligible MITs to make an irrevocable election to adopt capital account treatment for certain types of assets (broadly shares, units and real property) for income years to which the election applies. An irrevocable election has been made in respect of the Fund and accordingly deemed capital treatment will apply in respect of the qualifying assets for the income years to which the election applies.

Additionally, there is arm's length income legislation that applies to MITs. Under this legislation, excess income generated by a MIT from non-arm's length arrangements may be determined to be subject to tax at 30%. It is not expected that the arm's length income provisions will impact the Fund.

The Taxation of Financial Arrangement (**TOFA**) provisions apply on a mandatory basis to qualifying taxpayers in respect of certain financial arrangements. Broadly, the TOFA provisions recognise certain gains and losses on financial arrangements on an accruals basis, which may result in a taxing point prior

to the realisation of the investment. As at the date of this document, we, as Responsible Entity of the Fund, have not made an election to apply one of the elective methods under TOFA.

Tax losses incurred by the Fund will remain in the Fund and can be applied to reduce the Fund's income in future years (subject to the Fund satisfying the specific provisions of the trust loss carry forward legislation).

Tax position of Australian resident investors

You will generally be required to include in your assessable income your attributed income of the Fund. There may be instances where your attributed share of the taxable income of the Fund exceeds the distribution you receive from the Fund.

Where investors disagree with the allocation of taxable income in an AMMA Statement, they may give a 'member choice' to the Commissioner of Taxation. In the event investors make a member choice, the constitution provides that the investors will indemnify us for all costs and liabilities incurred as a result of the member choice.

CGT cost base reductions or uplifts may occur where taxable income attributed is either less than or greater than, respectively, the total of both cash distributed and tax offsets attributed for an income year. Where cost base reductions or uplifts occur, this will affect the CGT position of the investment. For those investors who have a zero cost base in their units, or where the total cost base reduction amount exceeds the cost base of their units, a capital gain may arise to these investors for that year. Investors should maintain records of their cost base adjustments. You may also be entitled to tax offsets (franking credits and/or foreign tax offsets) attributed by the Fund. Provided investors satisfy certain provisions of the Tax Act, investors may be able to utilise these offsets against their tax liability on the taxable components of the distributions. In order to claim the amount of tax offsets, investors must include the amount of the offsets in their assessable income.

We will advise each investor of their share of tax offsets in the AMMA statement.

The disposal of units (for instance by withdrawal or transfer) may give rise to a capital gains tax liability or a capital loss. Investors who have held their units on capital account for more than 12 months may be entitled to a capital gains tax discount.

Non-resident account holder reporting requirements

As a result of an increased international focus on account holder data exchange, a number of countries have legislated that financial institutions (which includes us) identify and report certain information about the financial accounts of investors. The regimes include the United States Foreign Account Tax Compliance Act (**FATCA**) and the OECD's Common Reporting Standard (**CRS**). To comply with our obligations under various reporting legislation we will provide to the ATO such data as required in respect of your investment with us. This will be required if you are a US citizen or a foreign tax resident of any jurisdiction outside of Australia. If we have attempted to confirm your tax status with you but have been unable to do so, we may still be required to notify the ATO.

Goods and Services Tax (GST)

GST is not payable on the issue, withdrawal or transfer of units in the Fund, as these are input-taxed financial supplies for GST purposes. However, GST will generally be incurred on various acquisitions made by the Fund, including the acquisition of investment management services. In certain specified circumstances, the Fund may be entitled to input tax credits

(**ITCs**), or reduced input tax credits (**RITCs**) at the prescribed percentage of 55% or 75% depending on the acquisition. Any available ITCs or RITCs effectively reduce the non-recoverable GST cost incurred.

Tax File Number

On your application form you may provide us with your Tax File Number (**TFN**), or TFN exemption. Alternatively, if you are investing in the Fund in the course of an enterprise, you may quote an Australian Business Number (**ABN**). It is not compulsory for you to quote a TFN, exemption or ABN, but if you do not, we are required to deduct tax from your attributed or distributed amounts at the highest marginal tax rate plus the Medicare levy (and any other levies we are required to deduct, from time to time). The collection of TFNs is authorised, and their use is strictly regulated, by tax and privacy laws. Non-residents are generally exempt from providing a TFN, however may be required to provide other information.

How to exercise cooling-off rights

The repayment of your investment under the cooling-off right is subject to an adjustment for market movements (both positive or negative) during the period in which the investment has been held. We may also deduct a reasonable charge for our administration costs.

Direct Investors

If you are a Direct Investor and you wish to exercise the cooling off rights, we must receive your written instructions at our office before the expiry of the cooling-off period. This cooling-off right must be exercised within 14 days from the earlier of:

- when you receive confirmation of your investment; or
- the end of the fifth business day after the day on which your units were issued or sold to you.

Indirect Investors

If you are an indirect investor, you should seek advice from your financial adviser or platform operator about the cooling-off rights (if any) that might apply to your investment in or through the platform.

Wholesale clients

These cooling-off rights do not apply to wholesale clients (as defined in the Corporations Act). Please note that as an investor in the Fund you will not necessarily be a wholesale client for the purposes of the Corporations Act.

Additional information about making a complaint

As part of our commitment to providing quality service to our Investors, we endeavour to resolve all complaints quickly and fairly. Our policy is to acknowledge any complaint within 24 hours or as soon as practical after receiving it and investigate, properly consider, and decide what action (if any) to take and to provide a final response to you within 30 calendar days for standard complaints. If you have a particular complaint regarding your investment, please do not hesitate to contact us by calling the Fidante Investor Services Team on 1300 721 637 or by writing or emailing to:

Complaints and Disputes Resolution Officer

C/- Fidante
GPO Box 3993
Sydney NSW 2001

E: info@fidante.com.au

If you are not satisfied with our response or how the complaint has been handled (or we have not responded within 30 days) you may contact the following external dispute resolution scheme.

The Australian Financial Complaints Authority (AFCA)

GPO Box 3
Melbourne VIC 3001
Tel: 1800 931 678
www.afca.org.au

email: info@afca.org.au

AFCA provides fair and independent financial services complaint resolution that is free to consumers.

New Zealand investors must send all complaints in writing to the Financial Markets Authority, New Zealand.

Indirect Investors may either contact the platform operator or us with complaints relating to the Fund. Complaints regarding the operation of the platform should be directed to them. If a complaint is first raised with the platform operator and an Indirect Investor is not happy with how the complaint has been handled, the Indirect Investor will need to raise that with the platform operator or the platform operator's external dispute resolution service.

Privacy

We collect personal information from you and, if relevant, from your financial adviser. We may take steps to verify the information collected. Where you provide us with personal information about someone else (for example, your power of attorney, or related persons including the beneficial owners connected with your investment) you must have their consent to provide their personal information to us.

We will use your personal information to:

- process your application;
- provide and administer your investment and send you information;
- improve and personalise our products and services;
- conduct product and market research;
- inform you about other products and services that may be useful to you; and
- comply with our obligations under the law, including with respect of anti-money laundering, financial services and taxation laws.

If you decide not to provide certain information, we may not be able to process your investment or future withdrawal requests, or will have to deduct tax from any amounts attributed or distributed to you at the highest marginal tax rate plus the Medicare levy (and any other levies we are required to deduct, from time to time).

Disclosing your information

We disclose your information to your financial adviser. In addition, we may disclose information we hold about you:

- if you consent to the disclosure;
- if the disclosure is required or authorised by law;
- to our appointed registry services provider or organisations acting on our behalf (for example, external mail houses we may use to mail correspondence);
- to professional service firms that provide services to us such as legal and audit services, or data or information services;

- to related companies and/or the investment manager that may also provide you with a financial product or financial service;
- to electronic identity verification service providers, in order for identity information (about you or related persons connected with your investment) to be verified against relevant government and other databases, for the purpose of complying with anti-money laundering laws;
- in some circumstances, to digital service providers, such as Facebook, Google and LinkedIn, to develop a better understanding of our current and prospective customers and advisers (please refer to the Privacy Policy for additional information); or
- otherwise in accordance with our Privacy Policy.

From time to time we or our related companies may contact you to tell you about other products and services that might be useful to you, including financial, superannuation, investment, insurance and funds management products and services. Please contact us if you do not want to receive any of this kind of marketing material.

For information on how you can correct or update the personal information we hold about you refer to 'Keeping us informed' in this AIB and our 'Privacy Policy' available at www.fidante.com and our third party registry providers privacy policy for more information.

Our Privacy Policy contains further details about our handling of personal information and about how you can request access to it or lodge a complaint if you believe your personal information has been misused, and how we deal with complaints.

We do not normally receive any personal information about you when you invest in the Fund through a platform operator. For details on the collection, storage and use of personal information by a platform operator you should contact them directly. The information we collect and store from platform operators is used to establish and administer its investments. If we do receive any personal information we will deal with it in accordance with our Privacy Policy.

Important information for New Zealand investors

This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

This offer and the contents of the offer document are principally governed by Australian rather than New Zealand law. In particular, the Corporations Act and the regulations made under that Act set out how the offer must be made.

There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please

contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

This offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not in New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand dollars.

The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.
