

## NovaPort Smaller Companies Fund – Wind-up update

In May 2024, we advised unitholders of the decision by Fidante Partners Limited (**Fidante**), in its capacity as Responsible Entity, to terminate the NovaPort Smaller Companies Fund (**Fund**). With the exception of one asset, the Fund's portfolio has been completely liquidated and proceeds were paid to unitholders in two tranches in May and June.

The remaining Fund asset is a suspended holding, Leo Lithium Limited (**LLL**). LLL is an African-based ASX lithium stock that has been in suspension from the ASX since September 2023 due mainly to issues related with their principal asset being an interest in a Mali Lithium mining venture. At this stage, there remains considerable uncertainty of LLL trading again in the short term, if at all. LLL are now seeking to dispose of their asset and distribute proceeds in tranches over the next 12 months or so. Further information can be found through the company announcements via the ASX.

Fidante are also exploring options available to facilitate the disposal of LLL in the most efficient way possible.

While there is no time limit to complete the formal Fund wind up due to the status of the suspended holding in LLL, we will provide updates as and when available and distribute proceeds from LLL as and when received.

**If unitholders have not received termination proceeds relating to the two tranches already paid, please check your details to ensure you have provided us with current bank account details.** If required, you can update your bank account details by completing a change of details form from our website: <https://fidante.com/au/FIDA-Change-of-Details-Form.pdf>

### Further information

Unitholders should seek their own tax advice in relation to the taxation implications of receiving the termination payments, taking into account the investor's own particular set of circumstances.
